It looks like he is Ex. 6 Personal Privacy (PP), so he won't be attending – hopefully online! Thank you.

Sounds good and thanks for letting me know. I recall your solicitor was going to attend in person. Do you know if he is still planning to come over in person? I can meet them in the lobby for a visitors badge.

Hi Chris,

I have a meeting immediately after our meeting today, so I will be unable to attend in person today. I will be traveling with BLM this week, so I am guessing I will see you soon.

Chat soon –

Lauren

Hi Laura,

I apologize for asking, but could we push our meeting out 1-2 weeks? If we could get some more time, my team will be able to provide your team with a better overall update.

Thank you for your consideration!

Hi Chris,

Thank you for organizing this meeting. Once you get the room booked, will you send me an invitation to extend to my team? Jon Goltz reached out to my counsel, Patrick Johnson, about attending. He is local too, so he might prefer to come in person as well, let me know if that's alright.

Thank you –  
Lauren

Hi Lauren,  
Monday August 1<sup>st</sup> at noon works best for us. Since you are local, do you want to meet us at the ConocoPhillips building? If yes, I'll book a conference room.

I would like to include the following folks from my team to match the subject areas we discussed over the phone.

- Laura Perry (Air Quality)
- Lisa Pekich (Village outreach and EJ)
- Chrissy Pohl (ESA wildlife)
- Lynn DeGeorge (permitting)
- Dave Finocchio (engineering rep)
- Me and Hannah Griego can cover wetlands, CM, and your question about pad locations.

Hi Chris,

I just left you a voice message. The earliest the whole team is available to meet is July 25<sup>th</sup> at 7am; our next available time is August 1<sup>st</sup> at 12pm. I have placed a hold for both of those times for now with everyone. Please let me know if either of those times work for you and your team.

We would generally prefer for the meeting to be held online; if you would like me to attend in person I'm able to do that since I'm local.

Thank you –

Lauren

**Subject:** EPA Meeting with ConocoPhillips

Hi Lauren, I spoke with ConocoPhillips' Willow project manager Chris Wrobel (cc'ed here) this morning about a meeting with the EPA to discuss the Willow project. During the previous Willow EIS, Conoco had several meetings with EPA staff to discuss things like road alignment, potential impacts, and compensatory mitigation projects. I know there has been a lot of staff turnover at EPA since the last EIS, so if you all would like a detailed walk through of the project and the proposed compensatory mitigation projects, please reach out to Chris. His phone number is (907) 263-4691.

Also, please let me know if you all have any questions on the SEIS as you prepare your comments on the Draft. I'm happy to sit down with you all and answer any questions you have.

Cheers,

Stephanie Rice
